

## Section 1 — Assignment Context

|                              |                                                                                                                  |                   |          |
|------------------------------|------------------------------------------------------------------------------------------------------------------|-------------------|----------|
| <b>Student Name:</b>         | timothy tan kwong meng                                                                                           | <b>TP Number:</b> | tp139603 |
| <b>Module Code:</b>          | CT077-3-2 DATA STRUCTURES                                                                                        |                   |          |
| <b>Assessment Title:</b>     | ASSIGNMENT TASK 1                                                                                                |                   |          |
| <b>Traffic Light Status:</b> | <input checked="" type="checkbox"/> Amber <b>(Restricted)</b> <input type="checkbox"/> Green <b>(Integrated)</b> |                   |          |

## Section 2 — Scope of AI Use

AI Tools Used:

Gemini

*Purpose of Use (tick all that apply):*

|                                     |                                 |
|-------------------------------------|---------------------------------|
| <input type="checkbox"/>            | Idea generation / brainstorming |
| <input type="checkbox"/>            | Structuring / outlining         |
| <input checked="" type="checkbox"/> | Explaining concepts             |
| <input type="checkbox"/>            | Editing / refining language     |
| <input checked="" type="checkbox"/> | Code generation / debugging     |
| <input type="checkbox"/>            | Data analysis / interpretation  |
| <input type="checkbox"/>            | Other:                          |

*For Amber assessments:*

1. Describe how your use complied with the assignment restrictions:

I made my own code, then i used Gemini to assist in debugging and code generation to resolve and troubleshoot the errors.  
 Generating isolated, small code snippets to learn C++ syntax or basic library usage that i did not understand

2. Share the LINK to your AI Chat

<https://share.gemini.google/JKgWHmbMkMmw>

### Section 3 — Verification & Contribution

*How did you verify AI-generated content?*

- |                                     |                                    |
|-------------------------------------|------------------------------------|
| <input checked="" type="checkbox"/> | Checked against lecture materials  |
| <input type="checkbox"/>            | Checked against academic sources   |
| <input checked="" type="checkbox"/> | Tested outputs (code/calculations) |
| <input type="checkbox"/>            | Other:                             |

*What did YOU change, add, or improve?*

I took the advice of the AI and then improved to include the data cleaning, and modified the program to use the assignment scenario all by myself.

### Section 4 — Declaration

*I declare that AI was used in this assignment and*

- |                                     |                                                                  |
|-------------------------------------|------------------------------------------------------------------|
| <input checked="" type="checkbox"/> | I followed the assigned Traffic Light status                     |
| <input checked="" type="checkbox"/> | I did not exceed the permitted scope of AI use                   |
| <input checked="" type="checkbox"/> | I verified all AI-assisted content                               |
| <input checked="" type="checkbox"/> | The final submission reflects my own understanding and judgement |

|                                                                                                          |                         |
|----------------------------------------------------------------------------------------------------------|-------------------------|
| <b>Signature:</b><br> | <b>Date:</b><br>9/29/26 |
|----------------------------------------------------------------------------------------------------------|-------------------------|
